EDUCATION

Thinkful
Engineering
Immersion - 2021

University of Houston - Downtown
BBA
Houston, TX

EXPERIENCE

Software Engineer/QA Engineer
Rodeo Logistics
Austin, TX / Dec 2021 to Feb 2022

- Collaborated with a cross-functional team to define features and build powerful and easy-to-use products and customer-facing workflow tools.
- Conducted full lifecycle software development from planning to deployment and maintenance.
- Documented technical specifications and project testing methods for future reference.
- Participate in code reviews with senior engineers to gain feedback and insight for improvements.
- Produced test scripts using Cypress for new automated software testing rounds.

Software Developer
DevWorks
Austin, TX / Mar 2021 to Dec 2021

- Redesigned mission-critical web apps with Javascript, React, and Node
- Design and develop APIs using Node and various data technologies including Express middleware routing and Knex.
- Performance tuning for both Frontend and Backend code using debugger, DevTools, console logs, and reproducing bugs.
- Write unit, integration, and end-to-end test using Jest and Puppeteer.

Financial Advisor
Siska Financial Services
Houston, TX / Mar 2015 to Oct 2019

- Serviced accounts for more than 100 clients with over $22 million in investment assets.
- Counseled clients on financial matters and provided recommendations on investment opportunities, products and services based on client needs and asset availability.

SKILLS & INTERESTS

Skills: JavaScript, React, Node, Express, Cypress, PostgreSQL, Knex, JQuery, Jest, Puppeteer, GraphQL, Spanish, client follow-up

PROJECTS

MASS - Mutual Aid & Shared Services gives help to those in need.
Live App | Client Repo | API Repo

Tech: JavaScript, React, HTML, CSS, Express, NodeJS, PostgreSQL
- Users can submit a wish list of things that they need. Trusted admin is able to see lists of orders from different users along with locations to deliver items.

Lango - French learning that uses spaced repetition to learn.
Live App | Client Repo | API Repo

Tech: JavaScript, React, HTML, CSS, Express, NodeJS, PostgreSQL
- User guesses the translation of each word. Score is kept on how many times they have guessed on the word, the correct and incorrect number of guesses on each word.
